# Merry Christmas

## Educating Our Children

*A letter to the Abstinence Clearinghouse from a parent*

*"As a parent of preteens, I felt responsible to help guide them into adulthood. I desired for them to make good decisions in areas that could easily be compromised in a moment. I desired to empower them with God's Word, as well as my own convictions and experiences, so that they could form their own standards. The Abstinence Clearinghouse gave me the resources I needed to begin conversations with my teens about dating, pornography, and setting boundaries prior to facing temptation. Thank you for providing relevant teaching material to help guide my children into adulthood."*

At the Abstinence Clearinghouse, we are encouraged by letters like this one from parents seeking tools to educate their children. Your generous gift allows us to provide age appropriate information and resources for parents and educators throughout the world.

This Christmas we ask you to join us in empowering parents to inspire young men and women to pursue virtue.

**Your gift of \$500,  
\$250, or \$100**

will impact and make a difference to the generation of tomorrow. Your support will make it possible for us to remain on the forefront in the fight for abstinence-until-marriage.

# Wishing You A Merry Christmas & Happy New Year
